

better in camp. Hamdin
had to bring up to usk lake
with bisks from Asturias
miss. We're thankful now
because we find more
plum fruit and berries
from up in usk valley.
but we have some trouble
with the wind and we often
have trouble finding out
the new fruit from the old.
We had a rainy day
and it rained all night and
was full of rain. So we
had to stop down by my river
and wait in the rain. The
plum fruit found in autumn
is not good well with snow and
rain. Rainy days are very bad
